ABOUT

I'm an 18-year-old self-taugh Swift language, iOS Developer, and computer science student from As Sulaimaniyah, Iraqi Kurdistan.

I started learning Swift language in early 2019 in Udemy and using other resources. I have high knowledge to develop iOS, iPadOS, macOS and watchOS apps by using both Swift and Objective-C languages, as well as the new SwiftUI framework.

I'm working on four apps for iOS, iPadOS, macOS and watchOS right now. some of them are available on App Store now.

I usually watching WWDC videos to learn, cources, coding and working on the personal projects.

EDUCATION

Oct 2017 - Present

Baban Institude for Computer Science (Stage 4)

- Best Presentation award in Stage 2.
- Project of the Year award in Stage 3.
