ABOUT

A 19-year-old self-taught Swift and Objective-C languages, iOS Developer, and computer science student from As Sulaimaniyah, Iraq.

I started learning the Swift language in early 2019 in Udemy and using other resources. I have high knowledge to develop iOS, iPadOS, macOS, and watchOS apps by using both Swift and Objective-C languages, as well as the new SwiftUI framework.

I'm working on four apps for iOS, iPadOS, macOS, and watchOS right now. some of them are available on App Store now.

EDUCATION

Oct 2017 - Present

Baban Institude for Computer Science

Studiyng computer science in programming department, currenty in stage 4.

HISTORY

Nov 2019 - Present

Freelance iOS Developer

Started developing free and paid iOS apps as an indepented developer.

Also worked on few client projects.

SKILLS

Swift

Writing apps on Swift for a year and a half.

Built TechnoConf, Healthy Pak and Locale 100% in Swift.

Auto Layout/Interface Builder

I have experience with building user interfaces with Auto Layout.

I can build user interfaces in a short time and get back to improving them at anytime.

UI/UX Design

Always focusing on the UI and UX of apps before shipping them.

I also have enough knowledge of them.
